

Paige Knapman, CRSP

Paige Knapman is the principal consultant with **Safely Managed Consulting** a company that specializes in helping workplaces develop and continually improve their Safety Management Systems.

Paige has worked as a certified OH&S Auditor with the Partners program and has more than 10 years of Safety Management Systems auditing experience. Paige holds current certification as an External OH&S Auditor with the BC Municipal Safety Association (BCMSA), the Food Industry Occupational Safety Association (FIOSA) and with go2 for the BC Tourism industry.

Work and Industry Experience

Paige has been involved in workplace health and safety in different rolls for over 20 years. Her experience working as a Health & Safety Advisor in the industrial processing and heavy industrial sector offered the opportunity to work with employees and managers in a mentoring and leadership roll, with the overall goal of promoting a safe work environment and fostering a strong safety culture. In 2007 Paige was awarded certification as a **Canadian Registered Safety Professional**. Paige is actively involved with her community and volunteers as a Medical First Responder and works with the Emergency Preparedness Program in the Comox Valley.

In her role as a consultant, Paige enjoys helping workplaces develop and continually improve their safety management systems. In addition to OH&S auditing, services offered include safety program development, incident investigation and occupational safety training. Professional references are available from satisfied customers in several different industries.

Paige lives in the Comox Valley on central Vancouver island with her family enjoying an active outdoor lifestyle including camping, hiking and sea kayaking. Paige is available to travel and offers her services as a safety professional province wide.
