Fax: 250.729.0678

“Bill audited a busy department quickly and efficiently with minimal impact on operations. His audit report goes beyond the standard...

Excellent format, best of the 3 we had.”

With more than 25 years of operational management experience and a passion for safety, my goal is to improve your tourism-based business's safety systems. Better safety is better for all.

My background and professional experience — including extensive travel and years in service industries — give me a comprehensive understanding of regulatory requirements and a good grasp of tourism operators' needs. Clients say I have the communication and investigative skills essential for helping you assess your programs and achieve certification.

My audits are well-organized and efficient. Because I tailor the audit process to your situation, operational impacts are minimal and results are clear and usable. They will help you create and maintain a healthy and safe work environment for your employees and earn you the COR certification that means a better bottom line.
